

The Duck

Duckpin. Redefined.

What is The Duck?

The Duck is Switch's energetic take on duckpin bowling; compact, fast, and made for fun.

With **shortened, streamlined lanes**, it delivers all the excitement of traditional bowling in a fraction of the space. There's no heavy gear, no complicated setup just a sleek, modern system that fits effortlessly into bars, lounges, rooftops, and social venues of all kinds.

Gameplay is simple and addictive. The lightweight, finger-hole-free ball means no sizing, just grab, roll, and play. It's easy for first timers to jump in yet satisfying enough to keep competitive groups coming back for more.

The Duck transforms casual nights out into unforgettable shared experiences and turns underutilized spaces into revenue-generating hot spots.

Why People Love It?

The Duck is designed for one thing above all else: fun. With no complicated rules or heavy gear, it's the kind of game people can jump into instantly. Smaller balls and shorter lanes make it easy for anyone to play, while the fast pace and lively pin action keep the energy flowing from start to finish.

What makes The Duck special is its social nature. Friends quickly slip into friendly rivalries, coworkers bond as teams or opponents, and guests enjoy a few frames between drinks or conversations. It's bowling without the downtime, every roll feels quick, exciting, and satisfying.

The laughter, cheers, and playful competition turn each game into more than just sport, it becomes a shared experience. Whether players are chasing bragging rights or simply enjoying the moment, The Duck creates memories that stick. Fast, social, and addictive, it's the game everyone wants to play again and again.

Fits Your Business

Smart operators know: every square meter counts. That's why The Duck was built to deliver high returns from compact spaces whether it's a corner of a bar, a hotel lounge, or a vacant area in your entertainment venue.

It fits seamlessly into existing layouts without the cost or complexity of traditional attractions. No major renovations. No technical staffing. Just a low-maintenance, high-impact experience that keeps guests on-site longer and spending more.

The Duck drives food and beverage revenue, repeat visits, and group bookings, making it one of the fastest, easiest ways to boost profitability per square meter.

Effortless Operation

The Duck is built to keep your business running smoothly, no complications, no extra staffing, no surprises. Every detail is designed for hands-off, reliable operation so your team can focus on service, and your guests can focus on fun.

At its core is the **The Duck String Pinsetter**; a quiet, low-maintenance machine that delivers consistent performance throughout the day. Combined with integrated LED lane lighting, it ensures not only smooth operation but also a dynamic, modern atmosphere that enhances guest experience with zero added effort.

Whether you're running casual games or high-volume events, The Duck keeps the energy high with stable performance and vibrant lane presentation.

The system is powered by **Switch Genie Scoring System**, handling everything from game setup and registration to team transitions and dynamic formats. Its intuitive design requires no technical knowledge, allowing staff to operate confidently from day one.

With **The Duck**, you get seamless performance, immersive lighting, and a guest-ready system that works quietly in the background, driving satisfaction, efficiency, and growth.

Enhancements & Features

Elevate your **The Duck** experience with upgrades:

- **SwitchXpress Kiosk**

SwitchXpress is a fully integrated self-service system that streamlines the guest journey. From lane booking to food orders, guests handle everything on modern touchscreens, cutting wait times and easing staff workload.

With its intuitive pay&play design, bookings, payments, and gameplay start instantly in one smooth flow. Smart upsell prompts encourage add-ons, extended play, and combo offers while ensuring full control over pricing, timing, and availability.

- **Switch Bowler's Console**

Switch Bowler's Console is the player's all-in-one control hub, designed to keep the game flowing with ease. Its modern touchscreen interface makes every action simple whether selecting game modes, checking scores, updating names, or pausing between rounds. Guests stay engaged and in control throughout their experience.

With its compact design, Switch Bowler's Console fits effortlessly into any setup, while the intuitive layout ensures a smooth start for first-time players and regulars alike. Responsive and easy to use, it minimizes interruptions, speeds up gameplay, and keeps the energy high from the first frame to the last.

- **Switch Style Seating**

Switch Style Seating blends modern design with functional comfort, perfect for creating a premium lounge atmosphere around your Duckpin lanes. Its curved form, customizable colour options, and built-in LED lighting make it both eye-catching and versatile.

Durable enough for high traffic use and stylish enough to elevate any space, it's the ideal seating solution for social, high-energy environments.

Configurations & Dimensions

The Duck offers a modular lane system engineered for seamless integration across a wide range of venue types and spatial layouts. Whether you're working with limited square footage or designing a purpose-built entertainment space, our configurations are tailored to meet operational needs without compromising guest experience.

You can select from two core lane formats, **both available with and without a bowler approach platform**, giving you full control over how the system integrates into your space. Whether you're working with a tight footprint or building a feature attraction, there's a configuration that fits.

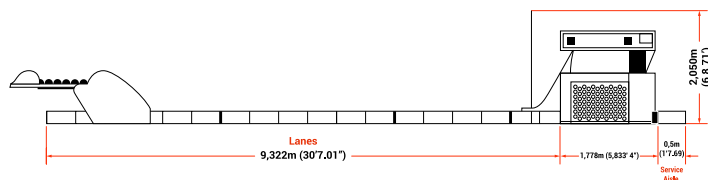

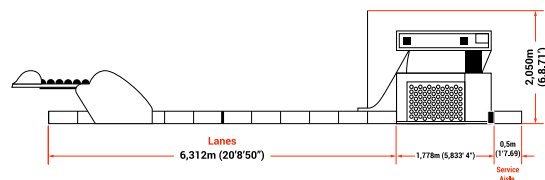

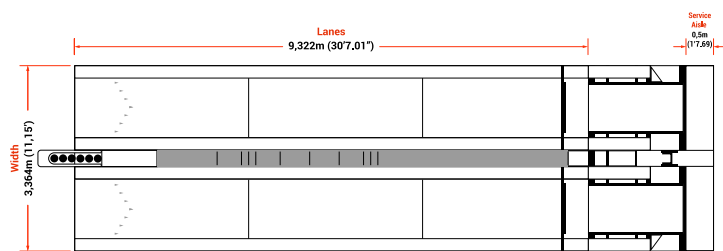

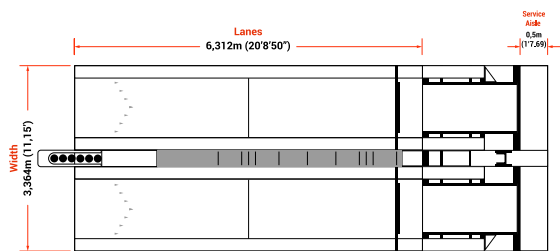

The Duck's modular structure supports clean installation, optimized guest flow, and seamless integration with seating, scoring, and lighting systems. Its space-efficient design unlocks the ability to bring bowling into environments once considered too small, **turning dead zones into high-performing entertainment spaces.**

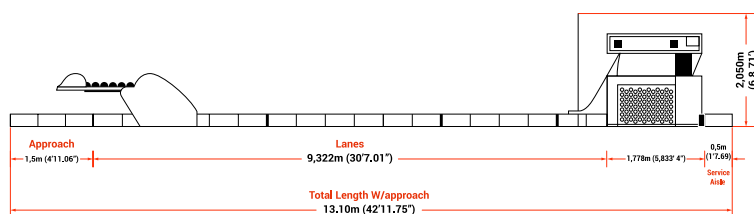

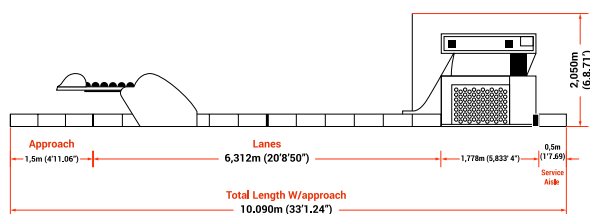

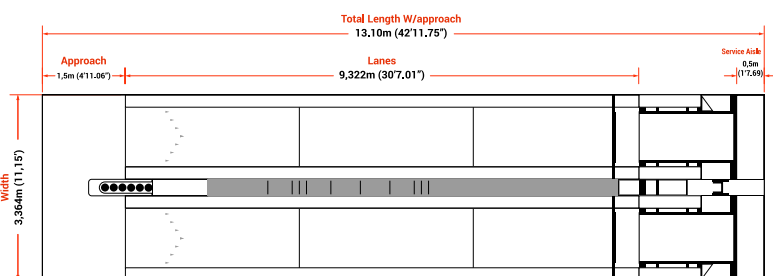

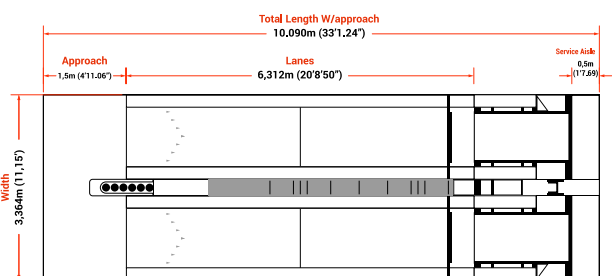

CONFIGURATION	LANES		APPROACH		TOTAL LENGTH		NOTES
6 Meters Version	6312	20'8.50"	1500	4'11.06"	10090	28'4.55"	Available without approach
9 Meters Version	9322	30'7.01"	1500	4'11.06"	13100	38'3.06"	Available without approach

Why Switch?

At Switch, we believe bowling should do more than entertain, it should elevate your space, define your atmosphere, and create moments guests want to relive. That's why every product we build is designed with intention: smart, stylish, and ready to perform in the real world. We approach each project with care, combining technical expertise with a strong sense of design. Whether you're building a rooftop venue, a boutique social hub, or expanding an entertainment venue, our systems adapt seamlessly to your vision, both functionally and visually. And our commitment doesn't end at installation. With responsive aftersales support, spare parts availability, and system guidance when you need it, we stay by your side, ensuring everything runs just as it should.

With a global presence and a reputation for quality, flexibility, and follow-through, Switch is the partner of choice for venues that want a bowling experience that feels effortless, modern, and built to last.
